

MARKETING ASSISTANT - INTERNSHIP

Nanologica is a Swedish nanotechnology company developing nanoporous silica particles for applications within life science. Nanologica is world-leading in controlling the shape, size and type of porosity of silica particles. This knowledge is applied within two business areas: drug delivery and chromatography (a separation technique used in drug development and drug production). The company's mission is to contribute to better and cheaper treatments for patients worldwide through the technology platform NLAB Silica™.

We now have an opening for an internship as Marketing Assistant for the business area of chromatography, where we are experiencing strong growth, primarily in China. The role will encompass preparing marketing materials, coordinate orders and organizing promotional activities. We are looking for a person fluent in English and Chinese as translation of material from English to Chinese will be part of the duties. A scientific background is preferred, and the position can stretch from 3 to 6 months. At the site in Södertälje, Sweden, we offer a multi-cultural, fast-paced working environment and the opportunities within the company are vast, as we are continuously growing and developing.

Welcome to join our enthusiastic team!
